UKZN has **several exclusive degrees on offer**; we are the only institution in the world to offer training and degrees in the field of Food Security.

UKZN offers **an exceptionally wide range of exciting and innovative courses** that will broaden perspectives, foster a capacity for independent critical thinking, and provide intellectual tools to develop your mind, while enhancing your career opportunities in the local and global marketplace.

UKZN’s campuses have **vibrant atmospheres** with students gathering at the various coffee shops, cafeterias and meeting places in-between lectures.

Not all learning takes place in the lecture theatre. UKZN offers **extensive sporting, cultural and extramural facilities**.

UKZN is one of only three South African universities **rated among the top 500 universities in the world**.

UKZN is the **third most productive university in terms of its research production**.

For more information, visit our website:

[www.ukzn.ac.za](http://www.ukzn.ac.za)

[www.facebook.com/studyatukzn](http://www.facebook.com/studyatukzn)
A CHOICE OF FIVE CAMPUSES

1. **Edgewood**, in Pinetown, is the University’s primary site for teacher education. It is close to all major amenities.

2. **Howard College** is situated in the vibrant cosmopolitan coastal city of Durban, renowned for its beaches and the Moses Mabhida Stadium. Howard College is close to a number of shopping centres and entertainment spots, as well as being about 10 minutes from the beach.

3. **The Medical campus** offers hands-on, problem-based, practical and relevant training to those interested in pursuing the MBChB programme. The campus is only ten minutes from Durban’s city centre. This campus is home to world-class infrastructure and laboratories.

4. **Pietermaritzburg campus** has a relaxed atmosphere with a communal ‘vibe’. This city is home to some incredible architectural and historical wonders which are sure to appeal to those interested in cultural activities. Pietermaritzburg is only a one-hour drive from Durban and two hours drive from the Drakensberg.

5. **Westville campus** is located within an environmental conservancy about eight kilometres from the CBD of Durban and Pinetown. The Westville campus has both state-of-the-art infrastructure and beautiful natural surroundings.
Applications to UKZN must be made via the Central Applications Office (CAO). The CAO is a central office that handles applications to most universities in the province of KwaZulu-Natal. The CAO is for first-time South African applicants applying for undergraduate programmes at UKZN. This includes transfers from other universities at an undergraduate level.

How Does it Work?

The CAO application form allows an applicant to apply to more than one institution and allows up to six choices on the same application form.

CAO offers an on-line application facility. Go to their website: www.cao.ac.za. Click on the tab ‘Apply’. After this, click on the left hand-tab ‘Apply now’. Follow the prompts and enter all the necessary information.

You can obtain an electronic copy of the CAO handbook by going to www.cao.ac.za, and clicking on the right hand side page on the tab entitled ‘For a copy of the CAO handbook entry for 2013, please click here’. In addition, application forms can be downloaded from the CAO’s website. Click ‘Apply’, then click on the tab ‘continue with your application’. You will then have to insert your ID number/passport number, then click on ‘continue with your application’. Follow the prompts and enter all the required information. You will then be taken to a page which will give you the option to download the application forms or apply online.

CAO forms and handbooks are available both from the CAO and the University’s Applications and Information Office. Handbooks are also available from the CAO office; please call 031 268 4444.

1. Consult the CAO handbook which provides listings of qualifications available at the different institutions.

2. Have a look through the various courses offered and choose a programme that interests you.

3. Find the CAO code which is linked to the qualification that you have chosen. This code needs to be entered on the application form.

4. Use this CAO code to complete a CAO form which is available from the CAO, the CAO website or the University’s Application and Information Office.

5. Follow the directions on the CAO form to submit your application.
Application Fee

An application fee of **R 175** must be paid to the CAO:
- either by cheque or postal order direct to the CAO on submission of the completed application form. The cheque or postal order must be made out to the Central Applications Office and the cheque must be crossed. No cash payments are accepted.
- by direct deposit at any branch of Absa Bank or via the Internet. Applicants must use the deposit slip or banking details provided on page 4 of the CAO application form.

After 1 November, a late application fee of **R 300** is charged. Not all programmes at UKZN will accept late applications.

For more information, please contact 031 260 2212/033 260 5212/031 260 7877 or email enquiries@ukzn.ac.za or consult www.ukzn.ac.za.
HOW ARE STUDENTS SELECTED?

UKZN is serious about excellence. It is important to note that all degrees have a limited number of spaces available. The best qualified applicants are chosen first and selection continues until all places have been filled. It is unlikely that applicants below the cut-off points will be selected. Demand exceeds places available, and not all applicants meeting minimum requirements will be offered places.

Entrance Requirements

- A National Senior Certificate for degree studies (NSC-DEG) (a Matric Bachelor’s pass).
- A minimum of seven subjects with at least four subjects (passed at level 4) from the designated list (right).
- English Home Language/First Additional Language (passed at Level 4 minimum). The medium of tuition at UKZN is English.
- Life Orientation (passed at Level 4 minimum). Life Orientation marks are not considered when calculating your Admission Point Score (APS).
- Degree-specific subjects and Academic Performance Score (APS) (see how points are calculated on the next page).

Designated NSC subjects

- Accounting
- Agricultural Sciences
- Business Studies
- Consumer Studies
- Dramatic Arts
- Economics
- Engineering
- Geography
- Graphics and Design
- History
- Information Technology
- Languages (HL, FAL, SAL + unofficial languages)
- Life Sciences
- Mathematics
- Mathematical Literacy
- Music
- Physical Sciences
- Religion Studies
- Visual Arts.

Note that all designated subjects as well as other approved NSC subjects count towards the accumulative Academic Performance Score (APS). Life Orientation (LO) and Maths 3 are the only subjects not scored. Extra subjects are also not scored.
**Other approved NSC subjects**
- Dance Studies
- Design
- Hospitality Studies
- Tourism
- Agricultural Management Practices
- Agricultural Technology
- Electrical Technology
- Mechanical Technology
- Computer Application Technology (CAT)
- Nautical Science
- Maritime Economics
- Equine Studies
- Civil Technology
- Sport and Exercise Science.

**Points table**
Add levels obtained in six subjects (excluding LO). If more than seven subjects were taken, add the scores for English plus Maths/Maths Literacy plus the four best other scores, excluding LO and Maths 3.

<table>

</tbody>
</table>

**Entrance requirements**

**Specific selection criteria**
Some degrees/diplomas have specific selection criteria. For example, Architecture Studies requires the submission of a portfolio and questionnaire. Music requires an audition and an interview.

**Disclaimer**
The University reserves the right to make changes/adjustments to some of the entry requirements and selection criteria, as well as discontinue the programme as it sees fit. Please contact the relevant college or the Applications and Information Office if in doubt.
Undergraduate Full-time Studies

- If you would like to apply for admission to a full-time undergraduate programme, you must apply on the UKZN Undergraduate Application Form.
- Refugee applicants must be in possession of a valid Section 41 permit/refugee identity document, which grants you permission to study. Application procedures and application fees as for local students are applicable. Apply via CAO. See Central Applications Office.

Contact numbers +27 (0)31 268 4444
www.cao.ac.za

International applicants are subject to a selection procedure based on academic merit and the number of spaces available. Applicants with non-South African school leaving certificates must contact the South African Matriculation Board directly to determine if they qualify for admission to degree studies in South Africa.

Please contact +27 (0)12 481 2913/2865 2924 or consult http://hesa.org.za/ or write to exemptions@hesa-enrol.ac.za

International applicants may qualify for exemption through AEB or Cambridge examinations if they have two A-levels (‘A’ – ‘E’) and three O-level passes (‘A’, ‘B’ or ‘C’) or equivalent. However, certain subject groupings are also required. It is not sufficient to pass in O-levels only.

Please note that programmes may have subject, level and minimum performance (in O and A levels) requirements for admission to their programmes. Consult the entrance requirement tabulations information on subject requirements. Please ensure that you have your original documents available at registration and arrange for official translations where applicable.

How to obtain a UKZN undergraduate application form

- Download an Application for Undergraduate Admission (Local & International) at www.ukzn.ac.za OR
- Contact the UKZN Applications and Information Office on +27 (0)31 260 2212/7877 or +27 (0)33 260 5212 to request an applications form and a copy of the Undergraduate Prospectus. OR
- Write to enquiries@ukzn.ac.za to request application material.

Application fee

An application fee is to be paid to UKZN as follows:

- Applicants from SADC countries and other countries in Africa: R 380
- Other international applicants: US$ 115.

Closing dates

The academic year at UKZN is structured as follows:

Semester 1: February – June
Semester 2: August – December

- For admission to semester 1 (February): Closing date – 30 September 2012
• For admission to semester 2 (August) 2013: Closing date – 30 April 2012.

No late applications will be accepted from international applicants.

Note that Medical School will not consider applications from international students. A limited number of international students are admitted to Medical School in line with governmental agreements with their countries.
Merit Awards are offered to the top Grade 12s intending to study at UKZN. The Grade 12 Merit Awards are awarded on receipt of the Senior Certificate symbols from the Education Department and no application is necessary. This does not apply to any individual who has studied beyond Grade 12 before coming to UKZN and/or is not within two years of the applicant’s Senior Certificate date. (Subject to annual review)

SCHOLARSHIPS & MERIT AWARDS

Prestige Entrant Scholarships

Pius Langa Scholarship (PrestigeEntrant Scholarship)
R 50 000 to matriculants from schools writing the NSC examinations and ranked in the top ten in each of the nine provinces, and to learners from IEB schools in KwaZulu-Natal who are ranked in the top 50 nationally in the IEB final matriculation examinations.

Renewal/Retention of Prestige Entrant Scholarships
Entrant prestige awards of R 50 000 may be retained into the next year of undergraduate study if the recipient scores at least 80% on a weighted average basis on a normal full-year subject load.

Frene Ginwala Scholarship (PrestigeEntrant Equity Scholarships)
The top 10 African female entrants who register at UKZN are awarded R 18 000.

Renewal/retention of Prestige Entrant Equity Scholarships
Entrant prestige equity awards of R 18 000 may be retained into the next year of undergraduate study if the recipient scores at least 85% on a weighted average basis on a normal full-year subject load.

Entrant Merit Scholarships for Exceptional Achievement

Merit Scholarships of R 20 000 are available to top achievers with Level 7 or greater NSC results in at least six academic subjects excluding Life Orientation, Mathematics Literacy and Ad Maths. Entrant awards are not available to students who join UKZN from other universities.

Renewal/retention of entrant awards
Entrant merit awards may be retained into the next year of undergraduate study at R 20 000 if the recipient scores at least 80% on a weighted average basis on a normal full-year subject load.

NB: Entrant awards may not be carried forward into postgraduate study.
GRADE 12 Top Performance Students
Entrant Merit Awards of R 18 000 to those matriculants ranked within the top 10% of Entrants from each of the largest 100 feeder schools serving UKZN, who are not included in category 2 above.

Renewal/retention of entrant awards
These entrant merit awards may be retained into the next year of undergraduate study at a higher value of R 20 000 if the recipient scores at least 80% on a weighted average basis on a normal full-year subject load.

Prestige Sports Scholarships
Students must have played sport at national level in the year immediately before registration with the institution; the scholarship is intended to cover tuition costs. A maximum of 12 scholarships are awarded; renewals are based on satisfactory academic performance.

Closing date for the sports applications is 31 October.

Further information on application procedures can be obtained from:

FINANCING YOUR STUDIES

Loans and Financial Aid

UKZN offers very limited financial assistance to students whose combined family income is less than R 150 000 a year. It is generally offered in the form of a loan which must be paid back, with interest, after leaving the University. A portion of the loan may be converted to a bursary if the student passes all modules in a degree. After the first year examinations, bursaries may be offered to academically deserving students who have passed 100% of their registered courses with a 65% or greater degree average and whose family gross income is less than R 150 000 per annum.

If you require financial assistance, make sure you indicate this on the CAO Application Form. Your application will be considered and financial aid application forms will be mailed to you if you are provisionally awarded financial aid. The information provided in these forms will be verified and the final award of financial assistance will be confirmed by the College Admissions office. Please also consult the sponsor database available at www.ukzn.ac.za/studentfund.

You will also need to budget for accommodation, books, stationery and equipment, transport, sports subscriptions and personal expenses. There are various payment options.

Academic fees

On the following page, please find a guide to fees for 2012. Fees for 2013 will be set in the second semester of 2012. Please allow for a possible change in fees for 2013.

Please consider that these are only the ‘study fees’ and do not include accommodation/ books. A text book can range between R 200 and R 600 and most courses require text books. Text books could cost as much as R 5 000 – R 6 000 per year. These extra costs need to be considered when looking at the University costs.

The fees listed on the next page are for guideline purposes only. They indicate the approximate amounts payable by students who are registered for the normal academic load for a full year on a full-time basis. The actual fees payable will depend on the specific modules for which the student has registered during the year.

Although the information regarding student fees has been compiled as carefully as possible, the University accepts no responsibility for any errors or omissions.

Acceptance deposit

A non-refundable deposit of R 500 is required from first-time candidates at this university to secure a place offered for the

2013 year and is payable on submission of the Firm Acceptance of Offer form.

**Registration deposit**

A registration deposit of R 3 250 is payable by all students other than NSFAS loan students on or before registration. (Please note that these are 2012’s costs).

Students may also apply to any bank for a study loan. See financial aid contact details on page 37.

**Edu-Loan and bank loans**

Edu-Loan Howard College: 031 260 2571
Edu-Loan Westville: 031 260 8801
ACCOMMODATION

There are on-campus and off-campus residences, but accommodation is limited. Allocation of rooms is based on need, academic potential, ability to pay and distance from home. Unfortunately, it is not possible to allocate rooms to all applicants and you may therefore have to find yourself accommodation off-campus.

Edgewood
Residence accommodation is available on Edgewood campus. Both catering and self-catering options are available. A total of 631 students are housed in 11 residences on campus. An additional five flats housing five students each are available for postgraduate students.

Howard College & Medical campus
On-campus residences
The University residences for Howard College and Medical campus in Durban accommodate approximately 2 162 students. Competition for places is keen and it is not possible to accept all applicants. Residences are grouped into two halls, namely Charles Smith Hall and Albert Luthuli Hall.

Charles Smith Hall comprises 12 individual residences close to the main academic buildings, banks, shops and Medical campus. All residences have access control, lounges and television rooms, intercom systems, call boxes and parking spaces. All residences are self-catering, while a cafeteria facility is available for students.

Limited accommodation for postgraduate students is offered at Scully House and Postgraduate House.

Off-campus residences
St Hillier is a mixed-gender residence which is comprised of fully furnished two/three bedroom flats. Each student has a single bedroom. Occupants share a lounge, kitchen and bathroom. A laundry facility and parking are available. St Hillier is situated opposite Queensmead Shopping Mall in Umbilo and is a few minutes’ walk from the Medical campus. It is on a bus route to Howard College campus.

The JV Smit Residence has 90 large single rooms with entertainment and study rooms as well as tennis courts. Catering, laundry and parking facilities are available. It is close to the Medical campus and is on a bus route to Howard College and the city.

Pietermaritzburg
Approximately 1 640 students are accommodated in residences. About a third of the students registered stay in one of the four halls of residence. The Student Housing helpdesk can be contacted for assistance with off-campus accommodation.
**Petrie Hall**
It is a cluster of residences for mainly first and second-year female students. The three large residences are Eleanor Russell Hall, University Hall and Lodge, and are situated close to the Science Block, Administration, Student Services, the library and tennis courts, shops, post office and banks. A student committee ensures the smooth running of student life in all residences.

**William O’ Brien Hall Residence**
This is a male residence which is situated on the main campus. It consists of single rooms distributed over six blocks, with communal kitchens. Extra-mural activities are well catered for via the residence sports programme, senior and junior lounges, a large communal games room, and a visitors’ reception lounge. Additional facilities include a braai area, car repair and wash bays, and secure parking for all residents’ cars.

**Malherbe Residence**
Malherbe (men and women) is situated on Durban Road opposite the University gate. Male and female accommodation is separate and the common rooms and TV lounge are shared. The residence possesses a quad-angle planted with trees, shrubs and lawn where students play ball games or relax. There is also a braai area. It is within walking distance of the Students’ Union, the Science Block, the Old Arts Block, shops, banks and the post office. It is, however, a 10-minute walk from the New Arts Block, Commerce, Law, Agriculture or Life Sciences Blocks. The Malherbe Flats (postgraduate students) are called Brucian House, and Robleigh House. Consisting of three, four and five-bedroomed flats, they are suited to small groups of students wishing to share accommodation. No sharing of individual rooms is permitted. Rooms are basically furnished and self-catering. A number of lock-up garages are available to rent.
**Denison Hall of Residence**

Denison (men and women) is situated in quiet park-like surroundings on the old golf course portion of the campus. Denison has its own kitchen complex and a clubhouse, consisting of a large communal lounge and the Denison Pub. The residence has gym, TV, snooker and table tennis facilities.

**Westville**

Westville campus offers a range of accommodation, including off-campus and self-catering flats and on-campus residences where meals are provided on request.

**On-campus residences**

The on-campus residences accommodate 1 810 students. Competition for places is keen and it is not possible to accept all applicants. There are four blocks of residences, namely S-Block, R-Block, P-Block and O-Block. O-Block only accommodates females, while all others are mixed. All residences have access control, television rooms and parking spaces. All residences are self-catering while a dining facility is still available at O-Block.

**Off-campus residences**

The off-campus residences accommodate 713 students. Competition is also keen and it is not possible to accept all applications.
These residences are fully furnished. All students share in double rooms while postgraduate students can be accommodated in a single room if available. Occupants share a kitchen and a bathroom. The residences of Bedford Hall and San Sabil are situated in Hospital Road in town. Dunstable Heights is in Varsity Drive, while Santa Cruz, for postgraduate students only, is in Reservoir Hills.

**Applications for residences**

Local first-year applicants must apply for admission to University residence on the application form supplied by the Central Applications Office (CAO). No separate application is required. It is not always possible to accommodate a student in the residence of first choice. International students must apply for accommodation on the UKZN application form. Students are not able to choose where to be placed and are placed where spaces are available.

**Residence accommodation fees**

Annual residence fees for first-time students are set at approximately R 16 100 per year for a standard room and R 17 760 for a large room. Please note that these are the approximate fees for 2012 and are subject to change.

---

**For more information contact:**

Edgewood: 031 260 3611  
Howard College and Medical campus: 031 260 2793  
Pietermaritzburg: 031 260 6226  
Westville: 031 260 8070
The country is facing a severe shortage of qualified engineers and scientists. Studies reveal that this skills' shortage is a major constraint to economic growth. We cannot compete on the world stage without skilled people capable of improving technology, creating and designing solutions to real life problems, sustaining life and improving food technology, and conserving the environment and our natural resources. Abundant and lucrative career opportunities, both in South Africa and abroad, await qualified graduates in science, engineering and agriculture.

From the classroom and laboratory to the field, UKZN provides one of the finest study and research environments on the African continent. We offer a wide array of interesting and innovative degree programmes which open doors to various careers in agriculture, engineering and science.

The College of Agriculture, Engineering and Science offers programmes at the Durban and Pietermaritzburg centres. Science and Agriculture is based on the Pietermaritzburg and Westville campuses. In particular, Agriculture is offered only on the Pietermaritzburg campus and Geology is only on the Westville campus. Engineering students have the option of completing their first year of study on either the Pietermaritzburg or Howard College campus (other than Chemical Engineering which is offered at Howard College only). All other years of study are undertaken at Howard College, except for the third and final year in Agricultural Engineering, which is offered only in Pietermaritzburg.

Engineering
Engineering at UKZN offers fully accredited professional degrees in the fields of Engineering and Land Surveying. These are structured degree programmes in the applied sciences, which stretch over four years of full-time study.

The College offers degree programmes which are relevant to industry, and are internationally recognised and accredited by the Engineering Council of South Africa. Qualified and skilled engineers are in high demand and our graduates readily advance into top positions with prominent companies world-wide.

Emphasis is placed on training in the fundamental principles which equip engineers, construction managers, land surveyors and quantity surveyors with the necessary skills to deal competently with the manifold problems they will meet in their professions. Graduates readily secure jobs with top national and international companies.

Science and Agriculture

Science and Agriculture at UKZN is recognised nationally and internationally for its excellence in education and research. It produces sought-after graduates who are equipped with the skills and training to meet the challenges of the 21st century. A diverse range of specialisations are offered, enabling students to shape their degrees according to their interests and career aspirations.

For example, UKZN’s School of Agricultural, Earth and Environmental Sciences recognises that agriculture is far more than farming. It encompasses conservation and environmental planning, engineering, economics, water research, microbiology, plant and animal breeding, human and animal nutrition, community resources development, horticulture, crop production and wildlife management, to name just a few.

Programmes in Science and Agriculture include general and flexible degrees as well as more specialised options with structured modules and focused vocational outcomes. Degrees are characterised by relevant and integrated training that encourages participative learning experiences. All first degrees in Science and Agriculture, with the exception of the four-year Bachelor of Science in Agriculture, require a minimum of three years of full-time study.

Recognised as a Centre of Excellence in health professional education, research and community programmes, the College of Health Sciences provides a unified and holistic approach to research-led teaching and evidence-based best practice at both undergraduate and postgraduate level across three campuses. Health Sciences at UKZN and the Medical campus serve 25 percent of South Africa’s population, resident in KwaZulu-Natal. The disease burden in the province is ever increasing, with health indicators reflecting the increase in infant, child and maternal mortality rates and morbidity. In the face of this massively increased burden, the commitment, dedication and determination to reverse the situation is noteworthy among our health professionals and scientists.

Health Sciences
Health Sciences at UKZN trains audiologists, biokineticists, dental therapists, professional nurses, occupational therapists, optometrists, oral hygienists, pharmacists, physiotherapists and speech therapists, alleviating scarce skills and addressing vacancy rates, particularly within the public health sector. As the sole provider of Health Sciences professional education and training in KwaZulu-Natal, all programmes are well subscribed, with the student body comprised of students from the whole of South Africa as well as southern and central Africa. The programmes aim to train Health Science professionals to play preventative, promotive, supportive, curative and rehabilitative roles in the public and private sectors. The programmes allow for specialisation and are three to four years in duration. All Health Sciences programmes, except Nursing, are offered on the Westville campus.

MBChB
The Medical campus offers a course leading to the registerable basic medical qualification, the degrees of Bachelor of Medicine and Bachelor of Surgery (MBChB). The two degrees are taken concurrently. The course is composed of a number of modules distributed over six years, with the last three years consisting of clinical modules. The undergraduate medical training programme combines traditionally taught modules with integrated student-centred, self-directed and problem-based modules, as well as clinical rotations. Candidates are exposed to clinical situations early in the programme. The undergraduate medical degree is administered and supported by the School of Laboratory, Medicine and Medical Sciences, the School of Clinical Medicine and the School of Nursing and Public Health. This is in accordance with the training requirements laid down by the Health Professions Council of South Africa (HPCSA) for the degree of MBChB.

COLLEGE OF
HUMANITIES

The College of Humanities offers qualifications in Education and the Humanities, Development and Social Sciences. The College is committed to the intellectual development of the region through teaching and learning, research, development and community outreach, both as a measure of social responsibility and in the furtherance of the professional and academic concerns of many of our disciplines. Groomed as critical thinkers, some of our graduates become leading academics, while others are highly employable by government and non-governmental organisations. They excel as anthropologists, architects, creative artists, economists, educators, geographers, historians, market and survey researchers, media and communications specialists, political scientists, psychologists, social workers, sociologists, and urban and regional planners, to name a few.

Education

Education is offered at UKZN’s Edgewood (Pinetown) and Pietermaritzburg campuses; however, the Bachelor of Education degree (BEd) is only offered at Edgewood. The BEd is a four-year vocationally specific, professional degree that integrates, from the first year, both the academic study and the professional preparation required to become a teacher. Successful completion of the programme qualifies the student for registration with the South African Council for Educators (SACE) and for employment in South African schools as an educator at REQV 14 level.

The following five BEd specialisations are offered:

- Early Childhood Development, including Foundation Phase
- Foundation and Intermediate Phases
- Intermediate and Senior Phases
- Senior and Further Education and Training (FET) Phase
- Further Education and Training Phase

Humanities

Humanities at UKZN offers a wide array of innovative, enterprising undergraduate degree programmes which are in line with the diversity of professions found in society. They are offered on both the Howard College and Pietermaritzburg campuses; however, not all programmes and/or subjects are offered on both campuses. The choice of study programmes enables students to shape their degrees according to their interests and career aspirations. Those interested in the Humanities, Arts, Development and Social Sciences will find many stimulating subjects which can be pursued as majors or as supplementary courses towards Bachelor of Arts or Bachelor of Social Science degrees. In addition, to pursuing a general BA or B SocSc degree, students also have the option of studying a more focused or structured degree which has a set selection of modules.

UKZN – INSPIRING GREATNESS
The College of Law and Management Studies is one of the largest professionally-driven Colleges in UKZN. Both disciplines offer a wide range of undergraduate qualifications that are geared to preparing candidates for a professional career in the world of law, commerce and industry. Our graduates are highly valued in professions such as legal practice, accountancy, marketing, financial management, human resources, supply chain management and public administration. Law and management students have access to state-of-the-art computer laboratories and lecture theatres, as well as to leading academics who are nationally and internationally renowned specialists in the legal and commerce professions. These academics serve on various international and national professional boards and combine their wealth of practical knowledge with theory in formulating their lectures.

Law
The School of Law at UKZN is situated on both the Howard College and Pietermaritzburg campuses and offers degrees at both campuses while offering a limited number of service modules on the Westville campus. Courses are run by dedicated staff who are specialists in their own particular field. Law staff are rich in practical experience and therefore, in addition to providing students with critical knowledge and an understanding of the law, can also provide insight into the many practical aspects of legal practice.

The School offers a four-year Bachelor of Laws (LLB) degree. This degree is your gateway to a wide range of global careers in maritime law, environmental law, trademark and patent law, constitutional law, labour law, international trade law, criminal law, human rights law, family law, and many others.

But law is not just for lawyers. Virtually every public and private institution of any significance operating in today’s economy employs legally qualified staff. The LLB degree is the ideal foundation for anyone intent on a career in top management.

The many fascinating and rewarding career paths open to those with an LLB degree include: legal practice (legal practitioners are divided into attorneys and advocates), the public service and legal advisers. Law also offers a rich field for academic teaching and research as well as many outlets for legal writing and publishing.

A law degree is useful for investigative journalists, as well as for court and parliamentary reporting, while many of South Africa’s top politicians hold LLB degrees.
### Management Studies

Management Studies is based on the Westville campus and focuses on the provision of educational opportunities to equip candidates for careers in the wide field of commerce and industry. A wide theoretical training and sound foundation in the principles of Accounting, Economics, Finance, Information Systems, Management, Human Resource Management, Marketing Management, Supply Chain Management and Public Administration are provided.

The undergraduate programmes are specially designed to develop an innovative and entrepreneurial outlook in candidates as well as an adaptability of mind which will enable them, after a brief period of practical experience, to become eligible for responsible managerial positions in the public or private sector, or if desired, self-employment.

HOW TO GET THERE... BECOMING A CA (SA)

<table>
<thead>
<tr>
<th>Step</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Step 1:</td>
<td>Study and complete a Bachelor of Commerce in Accounting at UKZN (three years).</td>
</tr>
<tr>
<td>Step 2:</td>
<td>Complete a Bachelor of Commerce Honours (Accounting) or a Postgraduate Diploma in Accounting (one year).</td>
</tr>
<tr>
<td>Step 3:</td>
<td>After the completion of the BCom Hons (Acc)/Postgraduate Diploma in Accounting, candidates will register with an institution approved by SAICA for a three-year training contract. During that traineeship, candidates will write two qualifying examinations conducted by SAICA for entrance to the accountancy profession. Once the period of traineeship has been completed, the qualifying examinations have been passed and membership of SAICA has been approved, candidates are entitled to use the designation CA (SA).</td>
</tr>
</tbody>
</table>

The demand for Charted Accountants in South Africa is growing consistently.
Alternative access programmes were developed to assist students who come from schools that have not equipped them for admission to university. Accordingly, these students do not have the required entry scores or subject level passes. These programmes identify students who have the potential to succeed at university but simply do not have the university entry requirements. First-year programmes are restructured and additional courses are offered to improve communication and academic writing skills.

FREQUENTLY ASKED QUESTIONS

Can I do my undergraduate studies at UKZN part-time?
Most of our undergraduate studies are full time, and you are required to attend lectures and tutorials. UKZN does offer a BBA part-time at Pietermaritzburg and Westville, as well as a LLB at Pietermaritzburg and Howard College.

What can I do with my qualification?
• Consider the fact that majors/specialisations lead to certain occupations/jobs, but that the relationship is complex and not as direct as most people believe. Many graduates follow careers that do not seem to have anything to do with their chosen majors/specialisations.

• Before you select a qualification, understand your academic, personal and vocational strengths by assessing yourself in a detailed, honest and ongoing way.
• Research all the qualifications that are on offer.
• Study the rules of the qualification that you wish to enrol for in the University Handbook.
• Find out as much as you can about the future possibilities of your chosen major/specialisation. Resources include this booklet; the Internet; informational interviewing; and career and occupational information available at Career Counselling Centres.
Why a degree?
• occupation (for example, chartered accountant or psychologist).
• You prefer an emphasis on basic scientific methods and theoretical knowledge and a research orientation.

How do I know that I made the right choice in terms of my career?
Any choice that you make can only be described as an ‘optimal’ choice – the best choice that you could make at that stage with the information you had available and your circumstances. In order to make an effective career decision today, you need to:
• know about your skills, interests and values;
• investigate which options are available at UKZN and how they relate to different careers;
• think about how you make decisions and also reflect on how the decisions you have made so far influenced your life; and
• be willing to seek help if you feel that you need either to extend, or shorten your list of options.
