## RESPONSE TO MEDIA QUERY: ENROLMENT

The University of KwaZulu-Natal has received approximately 60 000 applications for the approximately 9 000 available first year places at undergraduate level. To-date, based on the applications made to the Central Applications Office, we have offered places to 2 800 students. The applications process is continuing and will continue until all available places have been filled.

As one of the largest contact universities in the country, UKZN can accommodate an estimated 43 000 undergraduate and postgraduate students in an academic year.

It should be noted that for a limited period after the release of the Grade 12 results, walk-in applications are allowed on the three main campuses from applicants who meet admission requirements to programmes which are not full. Those who meet the requirements, are required to complete and submit application forms together with the required documentation. Colleges will consider these applications but no places are guaranteed. Applicants just meeting the minimum requirements may not secure places.
